The Project

Book Noise is a Project from Dr. NoiseM. The idea behind the Project is to Release an Album of Noise and Drone Music not in the form of an Audio Release itself. This Release shows the music as an Art & Sound Release.

Each Side of this Book represents one track of this Release. The Audio-Sound is in the graphics made with PhonoPaper.

To hear the Sound as Audio you need an iOS, Android Smartphone or Tablet and the free App PhonoPaper from Alexander Zolotov.
